

COST 732 SPECIAL SESSION

Helge R. Olesen - coordinator of the special session on COST 732
National Environmental Research Institute (NERI), Aarhus University, Denmark

AVAILABILITY OF PAPERS

The COST 732 special session concerns the COST action on *Quality Assurance and Improvement of Micro-Scale Meteorological Models*.

Several of the presentations at the special session could not be prepared in due time to be included in the conference proceedings.

However, papers presented at the session will be available in electronic form soon after the conference (and possibly already before it). You can access them through the link

<http://www.harmo.org/harmo11/cost732>

If you wish to learn more about COST 732 the following additional links are of interest:

- The official web site of COST 732: <http://www.mi.uni-hamburg.de/index.php?id=464>
- The Wiki on Atmospheric Dispersion Modelling:
<http://atmosphericdispersion.wikia.com>

This wiki is a site for pooling experiences of atmospheric dispersion modellers - for both researchers and users. It has a particular forum for COST 732:
